DETAILED ACTION

Election/Restrictions

Claims 24-47 are pending.

Applicant had previously elected Species II, Figs. 13 and 14. Applicant identified claims 24-29, 31 and 42-46 as being consonant with the previous requirement. After further review of the claims Applicant is further required to elect from the following:

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 24-29, 31 and 42-45, drawn to a triple lumen catheter, classified in class 604, subclass 43.
- II. Claim 46, drawn to a method of manufacturing a triple lumen catheter, classified in class 264, subclass 512.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the process as claimed can be used to make other and materially different product such as a multichannel endoscopes, cystoscopes, resectoscopes and ureteroscopes.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 3763

A telephone call was made to Kent S. Burningham on 7/22/03 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kevin C. Sirmons whose telephone number is 703-306-5410. The examiner can normally be reached on Monday-Friday 6:30-4:00 ALT FRI.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703-306-0000.
